Hello Nonvikan Karl Augustt,

The field of ergonomics is vital for employee well-being, even more so now that working from home has been a common practice.

Without proper guidance from skilled professionals, workers face significant risks of causing long-term damage to their health by not paying enough attention to the safety of their work environment.

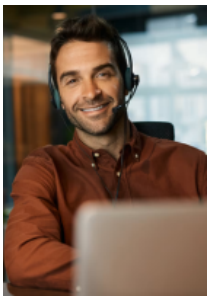
Help fight this phenomenon by becoming a certified ergonomics expert, either through our certificate or applied certificate program, both offered fully online.

Find more details about the Certificate in Ergonomics program, including the courses offered in the program, in our UFred Occupational Health and Safety (OHS) brochure.

DOWNLOAD BROCHURE

Apply Now

Once you've read about your program in full, the next step is to submit your **online application**. There are no application fees, and it only takes 5 minutes.



PERSONALIZED SUPPORT

Throughout your program research, you'll have the full support of a dedicated Program Advisor. They're here to help you make an informed decision on furthering your education. They can assist with determining program-fit, pre-assessing your eligibility and advising on full program details.

A Program Advisor will be in touch in the coming days, but if you'd prefer to connect earlier, you can reply to this email, **book a 1:1 consultation**, or call **+1 877-454-6232**.

We look forward to helping you take the next step in your career!

Yours,
The UFred Team

UFred
